SUMMARY

A Software Developer with three years of experience in the Technology field and expertise in PHP programming. I've built websites, worked with databases, and designed websites, so I'm well-versed in a variety of programming languages, including PHP, JavaScript, and SQL. I am delighted to apply my abilities and expertise to a vibrant, forward-thinking organization where I can make a significant difference.

EXPERIENCE

PHP Developer

Algoprime Technology   **June 2023 – Present, Abuja, Nigeria.**

· Maintained PHP-based web applications using the Laravel framework, adhering to MVC architecture principles.

· Designed and implemented database structures, carried out CRUD tasks, and enhanced query performance using MySQL.

· Integrated third-party APIs and services to extend application functionality and provide seamless user experiences.

· Actively participated in brainstorming and team discussions, offering creative solutions to difficult technical problems.

· Kept up-to-date with industry trends and emerging technologies, continuously improving skills and staying relevant in the field.

Junior Web developer

Lake Creations   **December 2021 – October 2022, Abuja, Nigeria.**

· Collaborated with a senior Web developer to design the company's website by explaining the steps to him, completing it together and improving the website's SEO by 30%.

· Resolved the company's website issues by fixing broken links, updating content, and removing unnecessary pages.

· Revamped the company's blog with website modernization efforts to create a better overall user experience and incorporated SEO optimization thereby increasing blog visits from users by 20%.

Backend developer Intern

Early code Tech Institute   **March 2021 – September 2021, Abuja, Nigeria**

· Collaborated with a team in developing a finance website where users can create an account, deposit money, withdraw and transfer to other users using PHP, JavaScript and MySQL, resulting in a simple, seamless and easy-to-use website.

· Developed frontend Web application projects using HTML5, CSS3, Javascript and CSS libraries such as Bootstrap and Tailwind.

· Learned how to use SASS for CSS development by learning how to create a SASS variable, creating a mixin, and using SASS to create a style sheet.

· Built an online bookstore where users can shop for books, add the books to a cart and pay online using HTML5, CSS and javascript for the client side and PHP and MySql for the server side.

PROJECTS

Fintech Website

https://earlymoni.infinityfreeapp.com/

· A responsive finance website which can be used to perform on-the-go financing transactions such as creating an account, logging in, deposits, withdrawals and transfers.

· Programmed the server-side logic using PHP, and deployed MYSQL for the database. Fixed specific issues and bugs on the website.

· Admin dashboard to approve deposits, withdrawals and transfers.

· Technologies Used: PHP, MySQL, HTML, CSS, JavaScript and Bootstrap.

Online Book Store

https://bookwave.infinityfreeapp.com

· Built a User registration and login system.

· Designed a Product catalogue with categories.

· Added Search functionality to find books by title and author.

· Admin dashboard to manage products, orders, customers, and reports.

·Technologies Used: PHP, MySQL, HTML, CSS, JavaScript and Bootstrap.

Online Coffee Shop

https://coffeefy.unibooks.com.ng

· Implemented a secure user authentication system to protect customer accounts and transactions.

· Developed an intuitive admin portal for efficient management of product listings, order processing, and customer interactions.

· Successfully incorporated the PayPal payment gateway, giving consumers more secure online payment alternatives and

facilitating safe web transactions.

· Technologies Used: PHP, MySQL, HTML, CSS, JavaScript, PayPal API, SASS and Bootstrap.

Quiz APP

https://disuabdulwahab.netlify.app/assets/Quiz/index.html

· Implemented a real-time scoring mechanism that dynamically updates users' scores as they progress through the quiz.

· Incorporated a 15-second time limit for each question, adding an element of challenge and urgency to the quiz experience.

· Designed the app to display the total scores at the end of the quiz, providing users with instant feedback on their performance.

· Ensured a responsive design that adapts to different screen sizes, making the quiz accessible on various devices.

· Technologies Used: JavaScript, HTML, CSS.

EDUCATION

BSc. Marketing.

Minor in Management · University of Ilorin · Ilorin, Kwara State, Nigeria. · 2022

CERTIFICATIONS

Fundamentals of HTML & CSS

CWW Tech Africa · 2021
